

# Nutrient Recovery Technology Field Day

April 20<sup>th</sup>, 2018 from 9:00 AM - 2:00 PM

Edaleen Dairy & Bellewood Acres

Parking at Bellewood Acres

6140 Guide Meridian, Lynden, WA 98264

## Dissolved Air Flotation (DAF) Unit & Mobile Struvite Processing System

We invite you to participate in our upcoming field day focusing on these two different types of nutrient recovery technology suitable for treating dairy manure wastewaters. Come see these technologies in action, and learn more about them from WSU researchers and their commercial partners.

### Topics covered will include:

- Operation and management of these systems,
- Resulting products and their agronomic use,
- Economics of incorporating nutrient recovery technology

### Event Details:

**Cost:** FREE but registration is required (includes lunch and bus transportation)

**Register by:** April 10<sup>th</sup> at: <http://csanr.wsu.edu/nrtech-field-day/>.

For questions or more information please contact Karen Hills at [khills@wsu.edu](mailto:khills@wsu.edu).

### Partners:

### Funding support by:

The field day is supported by Natural Resource Conservation Service Agreement #693A7516020, Agreement #693A751751, and Biomass Research Funds from the Washington State University Agricultural Research Center. \*Persons with disabilities who require alternative means for communication, program information or reasonable accommodation should contact Karen Hills at [khills@wsu.edu](mailto:khills@wsu.edu) at least two weeks prior to the event (April 6<sup>th</sup>).

WSU Extension programs and employment are available to all without discrimination. Evidence of noncompliance may be reported through your local WSU Extension office.
