

Vision

Washington State University 4-H Youth Development is developing young people to become productive citizens who are engaged in positive change, meeting the needs of a diverse and changing society.

How do you see this happening around you?

How else do you think 4-H clubs would like to pursue this vision?

Mission

4-H youth development education creates supportive environments for all youth and families to reach their fullest potential. This will be accomplished through a systemic approach of foundation and mission driven science to meet our goals to:

- provide formal and non-formal experiential learning,
- develop skills that benefit youth throughout life,
- foster leadership and volunteerism in youth and adults,
- build internal and external partnerships for programming and funding,
- strengthen families and communities,
- employ research based knowledge and the land grant university system, and
- embrace and expand the traditions of the 4-H Youth Program.

How specifically does our county program support this mission?
