

*Short talks that just might change  
how you look at water.*

September 19, 2019  
Shared Waters, Challenges, and Solutions

Settlemyer Hall  
BTC Campus, Bellingham

6:00-6:20 Refreshments

6:20-8:00 Short Talks on Water Topics

8:00-8:30 Explore the Topics

Register for this free event of short talks on critical water topics. The short talks will explore the status of water for fish and people, why it matters, and possible solutions to address challenges for meeting these needs. After the talks, explore the topics in more detail by talking to the speakers and visiting with the many partners working on solutions. Light refreshments.

**Free Event – Registration Required**
