WSU Extension programs and policies are consistent with federal and state laws and regulations on nondiscrimination regarding race, color, gender, national origin, religion, age, disability, and sexual orientation. Evidence of noncompliance may be reported through your local WSU Extension office.
Selling logs is one of the most important decisions you face as a landowner.

Landowners log their property for a number of reasons. For some it’s the culmination of decades of planning and hard work to produce a valuable crop. For others it might be a liquidation of an asset to meet a sudden financial need. Still others might be undertaking a thinning operation to improve forest health and habitat.

Logging is a high-stakes endeavor with consequences that can last decades—this is not a time to cut corners! Timber is a valuable financial asset, YOUR asset, that took decades to produce—don’t lose out on thousands of dollars by not getting a fair deal for your logs. Don’t expose yourself to unnecessary liability or be left “on the hook” for someone else’s mistake. Make sure your property looks how you want it to when the job is done.

Speakers will include:
Consulting foresters, log buyers, loggers, and representatives from the Department of Natural Resources (DNR) and the Department of Revenue (DOR).
